## Comfort Heating

Our Optimax Plus Panel Heaters are perfect for smaller rooms such as bedrooms, studies, conservatories and loft conversions.

Vent-Axia's Panel Heaters offer a wide range of heat outputs from 500W to 3000W and every model comes with thermostat control, integral 7 day timer and adaptive start. Vent-Axia Panel Heaters look as good as they perform. Stylish and slim, they occupy minimal wall space and are finished in an attractive white finish.

Vent-Axia Panel Heaters are wall mounted and connected to the permanent electrical supply via a fused connection switched outlet. Vent-Axia Panel Heaters are supplied with mounting brackets and 1.3 metre of cable connected to the bottom right hand side of the unit.

## Adjustable Thermostat

All Vent-Axia Panel Heaters have a built-in adjustable thermostat offering a full temperature range, including a frost protection setting of  $5^{\circ}\text{C}$ .

For maximum safety there is a thermal cut-out on all models to prevent overheating should the outlet grille be accidentally covered.
