

A1 Fire-Rated Ducting Kit

- "Telescopic" grille, providing flexibility during installation, accommodating variations in facade
- Built-in weather protection with angled grilles to promote run off
- Precautionary drainage holes
- Compliant with Approved Document B
- Compliant with Building (Scotland) Technical Handbook 2019
- Available in a choice of styles to suit new build and retrofit projects

Fire rated ductwork improves the safe operation of ventilation systems by minimising the chance of fire spread. Effective fire resilient insulation acts as a barrier between ducts, to slow down or prevent the passage of flames and smoke around the building.

A1 Fire-rated metal ducting kits, delivered as one piece, to allow for ease of installation, saving time on site. Perfect for multi-storey developments which require all materials forming part of the external wall to be made from non-combustible materials.

Models

A1 Fire-rated ducting kit 204x60

Model	Colour	Stock Ref.
Single Grille	Terracotta RAL 8004	498264
